

Free Azure e-books for your teams

FOR DEVELOPERS, DATA & IT PROFESSIONALS

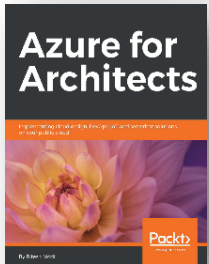

Learn Azure in a Month of Lunches 2nd Edition

Bite-sized lessons break down the most important Azure concepts with exercises and labs. [Link](#)

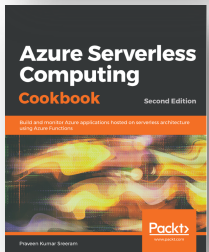

Developers Guide to Azure

Guidance to navigate the architectural approaches and most common scenarios in building cloud applications. [Link](#)

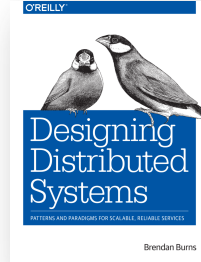

Azure for Architects

Simplified guidance for everything from understanding core services to delivering advanced solutions. [Link](#)

Azure Serverless Cookbook

Find use cases, hands-on steps, and tutorials for quickly configuring your own serverless environments. [Link](#)

Designing Distributed Systems

Find repeatable, generic patterns, and reusable components to make developing reliable systems easier and more efficient. [Link](#)

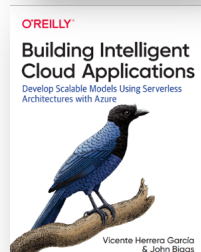

Kubernetes Up & Running

Improve the agility, reliability, and efficiency of your distributed systems with Kubernetes. Get the practical deployment skills you need in this O'Reilly e-book. [Link](#)

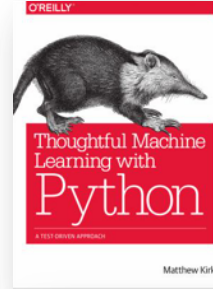

Effective DevOps

A practical guide for improving collaboration across teams, promoting efficient use of tools, and using the concepts of DevOps. [Link](#)

Building Intelligent Cloud Applications

Building and deploying scalable deep learning and machine learning models using serverless architectures with Azure. [Link](#)

Thoughtful Machine Learning with Python

Explore machine learning fundamentals with Python, techniques for improving models, and developing viable frameworks. [Link](#)

Cloud Analytics with Microsoft Azure

Maximize your BI impact by bringing data together from all your sources with Azure Synapse Analytics. [Link](#)

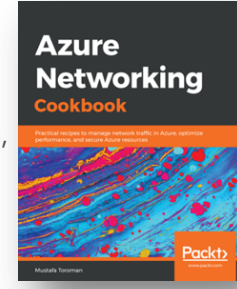

Professional Azure SQL Databases

An in-depth look at Azure SQL Database, the intelligent, scalable, cloud database service. [Link](#)

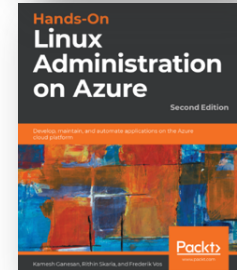

Introducing Microsoft SQL Server 2019

Find out what's new in Microsoft SQL Server 2019, a platform for secure and compliant modern data management. [Link](#)

Azure Networking Cookbook

Configure, manage, monitor, and troubleshoot networks more effectively with networking solutions from Azure. [Link](#)

Hands-on Linux Admin. on Azure

Find everything you need to know about deploying and managing Linux workloads on Azure. [Link](#)

Making the Most of the Cloud Everywhere

Unified Development and Modernization Practices in Hybrid Environments. [Link](#)

Enterprise Cloud Strategy

What you need to know now about moving your enterprise to a cloud computing strategy. [Link](#)
